VIZHINJAM INTERNATIONAL SEAPORT

India's Gateway to Global Trade

VIZHINJAM INTERNATIONAL SEAPORT

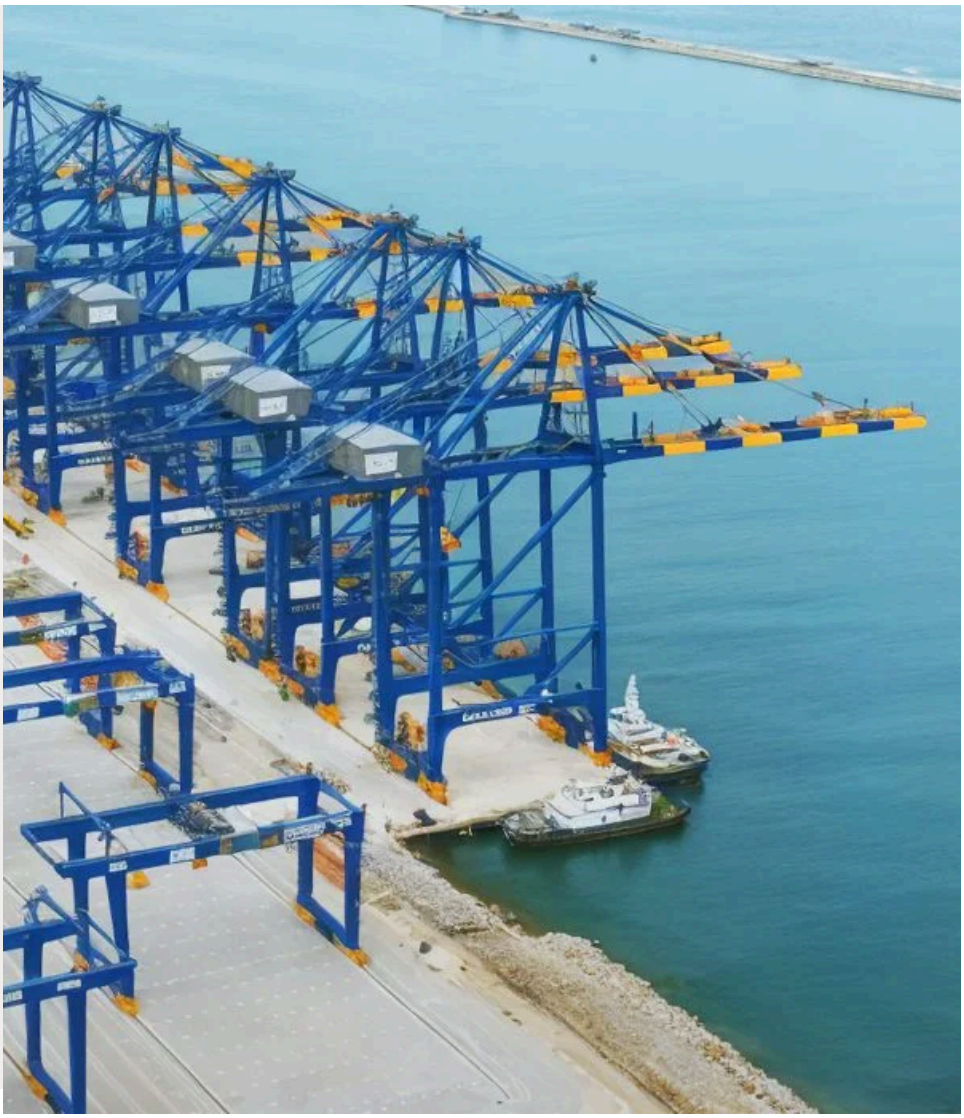

The Vizhinjam International Seaport is a strategically located, deepwater, multipurpose international seaport developed by the Government of Keralam to strengthen India's connectivity with global maritime trade. Located close to the international East–West shipping route, the port serves as a major transshipment hub and direct gateway for EXIM cargo, alongside multipurpose and break-bulk operations.

Developed under a landlord port model with a PPP component on a DBFOT basis, the port is operated in partnership with Adani Vizhinjam Port Private Limited, with Vizhinjam International Seaport Limited (VISL) representing the Government of Keralam.
Construction commenced on 5 December 2015, commercial operations began in 2024, and direct EXIM operations commenced in August 2026.

With naturally deep waters, strategic location and modern infrastructure, Vizhinjam is emerging as a key maritime gateway connecting Keralam and India to global markets.

WHY VIZHINJAM?

AT THE CROSSROADS OF GLOBAL TRADE

Located just 10 nautical miles from the international East–West shipping corridor, Vizhinjam sits at one of the world's busiest maritime crossroads, connecting Europe, the Middle East, Africa and Asia. Its strategic location enables seamless access to global shipping networks with minimal route deviation.

BUILT BY NATURE. READY FOR THE FUTURE

Few ports in the world possess Vizhinjam's natural advantages. Deep waters close to shore, minimal dredging requirements and favourable coastal conditions create an efficient and sustainable foundation for long-term growth and world-class port operations.

INDIA'S NEW GATEWAY TO GLOBAL MARKETS

With the commencement of direct EXIM operations, Vizhinjam has evolved beyond a transshipment hub into a global trade gateway. The port enables Indian businesses to connect directly with international markets while strengthening the country's position in global supply chains.

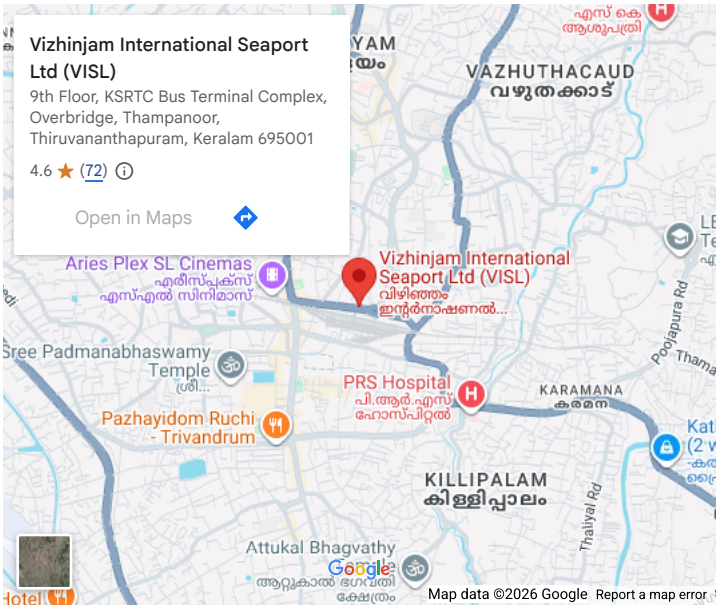

DRIVING THE NEXT WAVE OF MARITIME GROWTH

Vizhinjam is more than a port—it is the catalyst for a broader maritime and logistics ecosystem. By attracting investment, enabling trade, strengthening connectivity and supporting port-led economic development, Vizhinjam is helping shape the future of Kerala's and India's maritime economy.
